CARRER OBJECTIVE / PROFESSIONAL SUMMARY

Detail-oriented and analytical AI/ML Engineer with a solid foundation in machine learning algorithms, deep learning framework implementations, and data preprocessing pipelines. Demonstrates proven capability from a 6-month AI/ML internship focused on optimizing predictive models and deploying scalable data solutions. Adept at transforming complex datasets into actionable business intelligence and collaborating across cross-functional teams.

EDUCATION

MSc.IT, LJ University	2024-2026
------------------------------	------------------

Ahmedabad, Gujarat, India

BSc.IT, LJ University	2021-2024
------------------------------	------------------

Ahmedabad, Gujarat, India

TECHNICAL SKILLS

Programming Languages: Python (Advanced), R, SQL, C++

AI/ML Frameworks: TensorFlow, PyTorch, Keras, Scikit-Learn

Data Science & Analytics: NumPy, Pandas, Matplotlib, Seaborn, SciPy

Cloud & DevOps: AWS (EC2, S3, SageMaker), Docker, Git, CI/CD pipelines

Database Management: MySQL, PostgreSQL, MongoDB`

Specialized Domains: Natural Language Processing (NLP), Computer Vision (CV), LLM
Fine-tuning

EXPERIENCE / PROJECTS (Basic)

AI / ML Internship - 6 Month	Perusing
-------------------------------------	-----------------
